What We Include In Every WordPress Maintenance Plan

We offer WordPress maintenance services for businesses to keep your important website safe, quick, and dependable. We make sure your site performs at its best by regularly updating plugins and themes, backing up your site, checking its speed, and doing full security assessments. Find out more about our business WordPress solutions.

Full Security Scans & Monitoring

Protect your site from malware, brute force attacks, and vulnerabilities. We run regular security scans and take immediate action if any threats are found.

Secure Website Backups

Daily automated backups are stored in secure off-site locations. If anything goes wrong, we'll restore your site fast no data loss, no stress.

WordPress Plugin Updates

We safely update all plugins to the latest versions to ensure your site stays secure, functional, and compatible. No downtime. No risk.

Theme Maintenance & Updates

We handle theme updates with care to preserve your custom design and features. Whether it's a child theme or a premium theme, we keep it up to date and running flawlessly.

Speed Optimization & Health Checks

We run performance checks and implement speed improvements to ensure fast load times, better SEO, and happier visitors. Google loves fast sites, and so do users.

Reliable, Friendly Support

Our expert team is ready. We offer fast support with clear communication, no tech talk, just results. Think of us as your personal team.

What our clients say?

James Holloway
Designer

My WooCommerce store kept crashing during peak hours. IWH guys jumped in, optimized the backend, and even improved loading speed. I trust them for all my WordPress needs now!

Gareth Bale
Design Expert

I reached out on a weekend, and to my surprise, their team responded and resolved my issue the same day. Truly 'instant' support — friendly and super efficient!
